To whom it may concern

REFERENCE LETTER

Karachaganak Petroleum Operating B.V. has been working with Corrocoat Caspian LLP since 2017 for corrosion protection of process vessels. In 2018 and 2019 Corrocoat Caspian LLP was invited by our company as a key contractor for internal lining of process vessels during Shutdown works at Karachaganak oil&gas field.

During Shutdown-2019 works around 50 process vessels were coated by Corrothane XT material, manufactured by Corrocoat Caspian in Kazakhstan, which has been selected because of its good resistance to H₂S and chemical corrosion as well as due to its high thermal and pressure resistance.

Although the schedule was tight, Corrocoat Caspian team proved itself as capable to work under time pressure and managed to complete works in advance allowing our company to launch the field ahead of the schedule.

On behalf of KPO team, we would like to thank Corrocoat Caspian team for the good and quality job and recommend the company as a reliable and highly professional partner.

Yours Sincerely

Berik Khassanov/Берик Хасанов
