PLASMET ZF Now In an Aerosol

CORROCOAT

PLASMET ZF Aerosol

*“Mix & Go” –
It’s that easy...*

PLASMET ZF Now In an Aerosol

- **Surface tolerant corrosion protection**
- **Minimal surface preparation**
- **Contains rust inhibitor**
- **Ideal where grit blasting is not feasible**
- **No tools or clean up required**
- **Use up to 24 hours after first mix**
- **Glassflake content provides excellent moisture vapour barrier**
- **Tough, and durable, tolerant of vehicular traffic**
- **3 extra nozzles for ease of application**

Plasmemet ZF aerosol deserves to have a place in every service engineer’s tool bag - giving effective corrosion protection... in an instant.

Available in 400ml
